April 13, 2020

Dear Manufacturers, Patients, Caregivers, Healthcare and Supply Chain Professionals,

GEDSA is aware that COVID-19 has brought unprecedented times to us all. Collectively, GEDSA and its members will continue to monitor the ongoing situation and respond accordingly to help assist you and your facility.

To minimize any disruption to patient feeding and care in the foreseeable future, GEDSA members are committed to providing a continued supply of the enteral products that are currently being utilized in healthcare systems worldwide. With that stated, GEDSA remains committed to ENFit®, supports its use and acknowledges it is the ISO-compliant option in these times where the potential for a misconnection is high.

As a supplier group, we are keeping a close watch on increased demand, as we believe the demand will surge well beyond normal. Manufacturers are encouraged to prepare for these times.

For any questions regarding product availability or transition to ENFit®, please work directly with your supplier. If you cannot get in contact with your supplier and they are a GEDSA member, please contact us and we will ensure you are connected with a representative. Email info@gedsa.org or visit www.stayconnected.org for more information.

Whether your organization has converted, is in the process of converting, or potentially must postpone conversion plans, we are here to support you.

Regards,

Mike Cusack
Executive Director
