

Beth Lyman, MSN, RN, CNSC

Children's Mercy Kansas City

- For those of us in metropolitan areas, it might be wise to develop a consortium to share ideas, issues, etc.
 - Needs to include nursing, pharmacy, homecare, education, value analysis staff
- Home care providers and patients will need access help understand this change such as a 24 hour hotline to call to ask questions.
 - Needs to be multi-lingual
 - Some sort of pictograph or information needs to be included with syringes, feeding tubes and gtube extension sets

Beth Lyman, MSN, RN, CNSC

Children's Mercy Kansas City

- Our go-live date is July 18,2017 to avoid conflicting with TJC survey
- For those of us in metropolitan areas, it might be wise to develop a consortium to share ideas, issues, etc.
 - Needs to include nursing, pharmacy, homecare, education, value analysis staff
- Home care providers and patients will need access help understand this change such as a 24 hour hotline to call to ask questions.
 - Needs to be multi-lingual
 - Some sort of pictograph or information needs to be included with syringes, feeding tubes and gtube extension sets
